TA: Minghan Yan
TA Email: my2379[at]columbia[dot]edu
TA Office Hours: 3-4pm MTWR in 406 Math

Midterm Date: June 12th in class
Final Exam: July 3rd in class

There will be class Monday through Thursday until July 3rd. In addition, there will be class on May 31st and June 7th to make up for missing class due to Memorial Day and Independence Day.

Grading: Homework 20%, Midterm 20%, Quizzes 20%, Final 40%

Assignments: There will be 10 assignments during the term, due Tuesdays and Thursdays. They can be handed in during class or in the drop box. Your lowest assignment grade will be dropped. You are allowed (and encouraged) to work together on these, but after you finish the assignment you should know how to do the questions on your own.

Quizzes: There will be a 20 minute quiz at the start of class following the completion of each chapter. There are 7 total quizzes, of which your best 6 will count.

Exams: Both the midterm and final will be in class. The final will be on July 3rd, and the midterm will be on June 12th.
An approximate schedule for the course is as follows:
Chapter I: 4 Lectures
Chapter II: 3 Lectures
Chapter III: 3 Lectures
Chapter IV: 2 Lectures
Chapter V: 3 Lectures
Chapter VI: 2 Lectures
Chapter VII: 2 Lectures
Chapter VIII: 2 Lectures

If we finish faster than this, we will also cover basic sequences, series and limits; all of which are fundamental concepts in the theory of Calculus.

**Students with disabilities**
Students with disabilities requiring special accommodation should contact the Office of Disability Services (ODS) promptly to discuss appropriate arrangements.
The ODS website is the following
