MATH 1101: Calculus I, Spring 2014
General Course Information

Course Description
The course is dedicated to the fundamental notions of calculus: functions, graphs, limits, derivatives and introduction to integrals. It covers sections 1–6 of the textbook. The first midterm covers sections 1 and 2. The second midterm covers sections 3–4.5. The final is cumulative and covers all the material in the course.

The detailed course information can be found at the course website:

http://www.math.columbia.edu/~egorsky/calc1-s14

Text Book
The textbook is "Calculus : Early Transcendentals" (7th edition) by James Stewart. You will also need an access to WebAssign. You can find more information on the textbook and WebAssign at Math Department website (go to “Calculus Classes”) or follow a link at the course webpage.

Exams
Midterms will be given in class on Monday, February 17 and Wednesday, March 26. There will be NO MAKE-UP EXAMS. The Final will be on Wednesday, May 14, 9am-12pm.
Please bring your Columbia ID to all exams.

Office hours
Instructor: Eugene Gorsky, egorsky@math.columbia.edu
Office hours: MW 11am-12pm at Math 621.

Homework Policy
The homework will consist of two parts. You will have to complete one of the parts online through WebAssign and to hand in the other part to the relevant box on the 4th floor of the Mathematics Building. The written homework will be posted on the course website. All paper homework solutions must be stapled (no paper clips) and have your name and section number in the upper-right corner on the first page. Please write your solutions legibly; the grader may disregard solutions that are not readily readable.

Grading Policy

| Homework 20%, Midterm I 20%, Midterm II 20%, Final 40% | 1 |
