## Major in Mathematics requirement checklist

This form is for your convenience and does not replace the <u>bulletin</u>.

Please complete this form for approval by a department adviser early in the semester of the expected graduation date; attach copies of emails approving transfers/substitutions/electives.

	electives, selected from: Courses offered by the Magnate courses (maximum of 6 credits for cognate of the course)		ner, and
Code	Course name	Term	Grade

<sup>1 13-15</sup> credits including AP credits

<sup>2</sup> Students who are not contemplating graduate study in mathematics may replace one or both of the two terms of MATH GU4061- MATH GU4062 by one or two of the following courses: MATH UN2500, 3007, 3028, 4032

<sup>3</sup> Only one Undergraduate Seminar may count towards the major requirements.

## Transfer

If applicable, please enter here courses taken at another institution used to fulfill a major requirement. All transfers have to be approved by departmental advisor(s) (Calculus director for Calc/Linear algebra/ODEs). For study abroad, consult your departmental advisor in advance of registration. Please verify that transfer credits are correctly entered in SSOL, and check with you CC/GS advisor regarding transfer credit limits.

See Departmental Major/double-counting. Calculus I to IV/Accelerated Multivariable Calc/Honors Math A-B/Stat 1201/COMS 1004 ('introductory courses') may be freely double-counted with another program (second major, or concentration/minor). In addition to these, a maximum of two courses may be double-count if applicable, record here non-introductory courses claimed for double-counting.  Additional comments and information (if needed)	Code	Course name	Institution	Term	Grade
No course with a grade of D or lower can count toward the major, with the exception of: a P for the first cour taken in the major; any sporadic exception allowed by the COI (P in any class in SP20; one P in F20, SP21, F two Ps in SP24).  **Double-Counting**  **Double-Counting**  **Double-Counting**  See **Departmental Major/double-counting.** Calculus I to IV/Accelerated Multivariable Calc/Honors Math A-B/Stat 1201/COMS 1004 ('introductory courses') may be freely double-counted with another program (second major, or concentration/minor). In addition to these, a maximum of two courses may be double-countsubject to approval of all concerned departmental advisors (Math+department(s) offering the second program If applicable, record here non-introductory courses claimed for double-counting.  **Code** Course name**  **Second program** Term** Grade in the major, with the exception of: a P for the first courtage, with the exception of: a P for the first courtage, with the exception of: a P for the first courtage, which is a property of the program of two courses may be double-countsubject to approval of all concerned departmental advisors (Math+department(s) offering the second program of the program of two courses of the program of the program of two courses of two courses of the program of two courses of the p					
No course with a grade of D or lower can count toward the major, with the exception of: a P for the first cour aken in the major; any sporadic exception allowed by the COI (P in any class in SP20; one P in F20, SP21, F wo Ps in SP24).
